# FERTILIZERS

## ABSOLUTELY THE BEST.

Quality never varies. Thirty-one years' actual test in the field proves them to be unequalled for producing the largest possible yield of fine quality Grain, Vegetables, and Fruits. The purity of the component materials, and the scientific accuracy with which they are combined, make the Bradley Fertilizers the most perfect, as well as the most economical, plant-food a farmer can use.

For full descriptions of the Standard Fertilizers manufactured by us, progressive farmers are requested to send for a copy of our "Bradley's American Farmer," which will be sent free to any address.

## SAMSON'S PATENT RAILWAY HORSE POWER

**With Speed Governor for One or Two Horses.**

Drive wheel can be placed on either side; constructed so as to run machinery in small shops; also, for threshing, sawing wood, grinding feed, elevating grain, pressing hay, pumping, churning, shelling corn, cutting ensilage, ginning cotton, and all other machinery that admits of being driven by horse power.

**THE BEST FARM POWER MADE.**

Very still running and perfectly safe for a horse, nicely finished and an ornament to any place in which they may be located. In saying that this is the best Railway Horse Power ever made, is not overestimating this or underrating others, and we shall hold ourselves in readiness to prove, by the machines and their operation, that such is the fact.

Our price is low for cash, and any one in want of a horse power, drag saw machine, or a thresher and separator for cleaning grain, will do well to send to us for a catalogue giving description and price of our machines.
